-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 05/13/2004 have been fully considered but they are not persuasive.

Regarding claim 1, the applicant stated that nowhere does Stern disclose, teach or suggest signals from a plurality of areas are combined into groups. The examiner states that signals from areas that have base sites 121, 122, 123, 124 are grouped into group X and signals from areas that have base sites 411, 412, 413, 414 are grouped into group M (see Fig. 1). And there is routing means 150 (col. 4, lines 37-38) for calls to be transferred from X system to M system.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Stern et al. (U.S. Patent No. 4,799,253).

Regarding claims 1, 4-8, 10-13, Stern et al. teaches a transmit-receive system on board a satellite for a telecommunication system within a region covered by said system, wherein said region includes a plurality of areas including isolated areas (see Fig. 1), said system receives calls from any area and transmits said calls to the same area or another area, said system comprising: means for combining signals from said plurality of areas into groups (e.g. group X

and group M), and routing means for routing calls from any one of said groups to itself, or to another of said groups, wherein each group is allocated all of the communication resources of said region (Fig. 1; Col. 5, lines 15-27).

Regarding claim 2, Stern et al. teaches the system as in claim 1 wherein routing means are hardwired (e.g. trunk 150, Fig. 1).

Regarding claim 3, Stern et al. teaches the system as in claim 1 wherein said areas are allocated to said groups in such a manner that the traffic is substantially the same from one group to another (Fig. 1; Col. 5, lines 15-27).

Regarding claim 9, Stern et al. teaches the system as in claim 8 wherein said resources allocated to said groups for interconnecting said groups include frequency bands (col. 4, line 39).

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
